

MQ15-X-Power male 0° / MQ15-X-Power female 0°

PVC 6x1,5 bk UL/CSA 5,0m

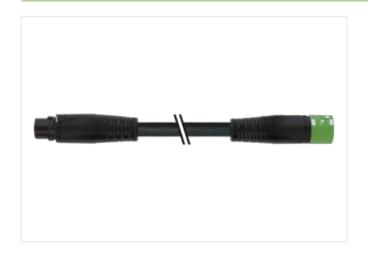

Male straight – female straight MQ15, 6-pole without cable sleeves

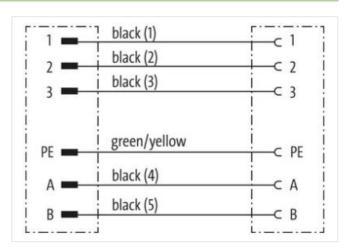

Plastic housings with good resistance against chemicals and oils.

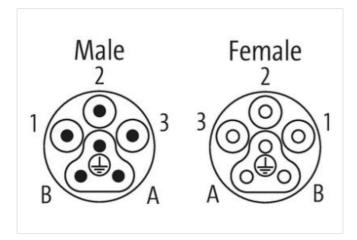

The resistance to aggressive media should be individually tested for your application. Further details on request. Further cable lengths on request.

Environmental characteristics Climatic	
Operating temperature min.	-25 °C
Operating temperature max.	80 °C
Additional condition temperature range	depending on cable quality
Important installation notes	
Note on strain relief	Protect the connectors by suitable measures from mechanical leads, a.g. by the usage of cable ties
Note on bending radius	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces.
Installation Cable	changeled by excessive behaling forces.
