

MUIW ANALOG COUPLER COMPONENT

IN: 0..10 V - OUT: 4..20 mA

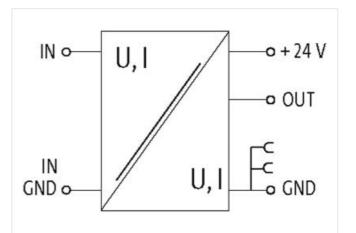

INPUT: 0...10 V DC OUTPUT: 4...20 mA Spring clamp terminals Input and output galvanically separated The Murrelektronik analog converters convert standard signal formats (0...10 V, 0...20 mA, 4...20 mA) galvanically separated into one of these signal formats. Due to an integrated current limiter the output is short-circuit and overload

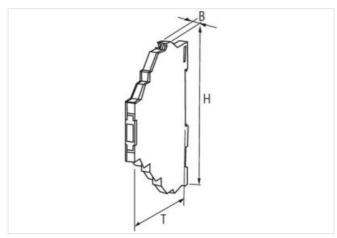

Link to Product

protected. Module MIIW – 0/4...20 mA to 0/4...20 mA – without auxiliary supply

Product may differ from Image
