

RJ45 Heavy Duty male 90° up IDC

8-pol., AWG26-24, 5-9mm, shielded, CAT5

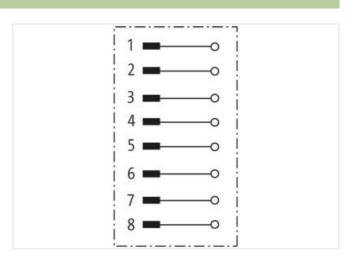

Ethernet Male 90° 90° on top RJ45, 8-pole Field-wireable shielded Protection IP20

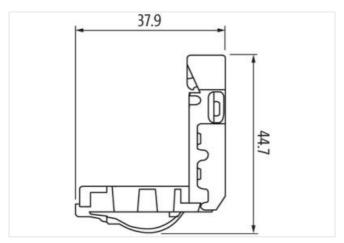

The resistance to aggressive media should be individually tested for your application. Further details on request.

| Important installation notes | |
| Note on strain relief | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. |
| Note on bending radius | Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
